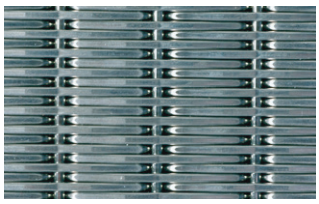
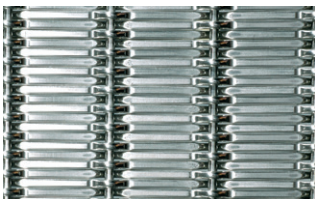
GAGEWOVEN®

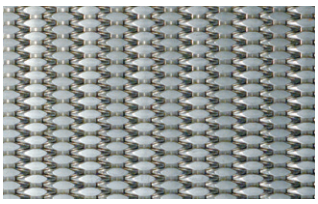
Standard Designs



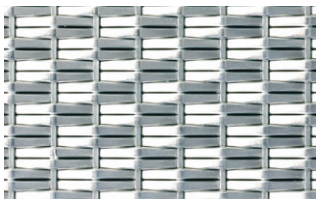
GW900 Escalator (SS)



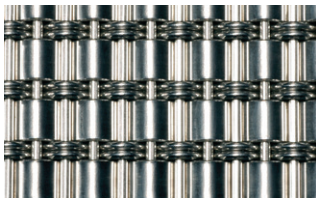
GW901 Guardian (SS)



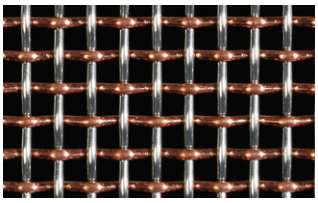
GW902 Snakeskin (SS)



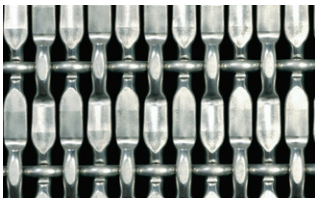
GW903 Baroda (SS)



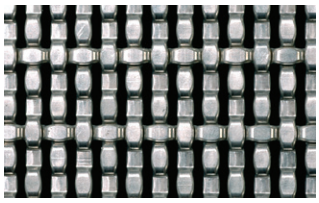
GW905 Watchband (SS)



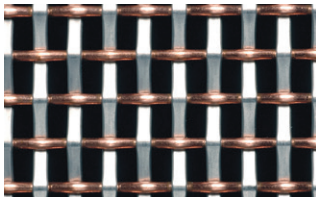
GW906 Round Symmetry (C/SS)



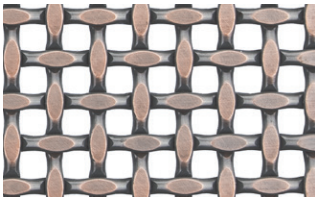
GW907 Metal Steps (SS)



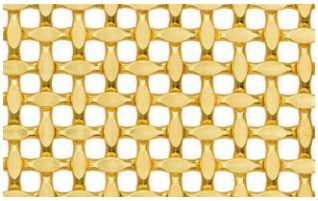
GW908 Jewel Path (SS)



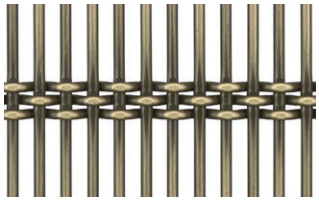
GW909 St. Paul (C/SS)



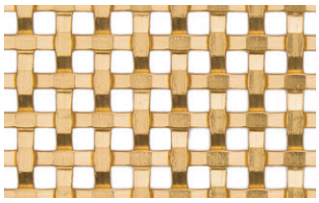
GW910 Ice Dancer (CA)



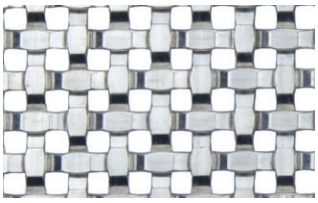
GW910A Ice Dancer II (B)



GW911 Venetian (BA)

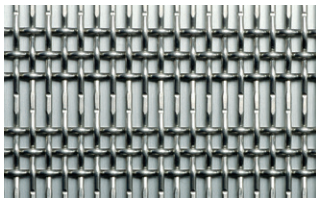


GW912 Blue Collar (CB)

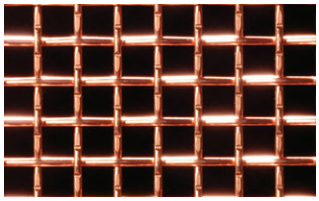


GW912A Blue Collar II (SS)

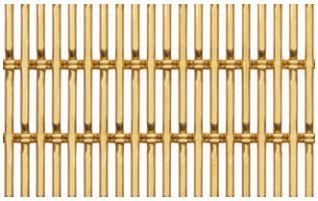
GW913 Highrise (SS)



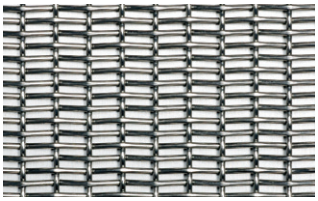
GW914 Corsican (SS)



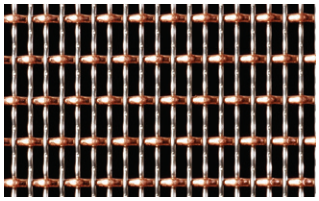
GW915 Intersection (C)



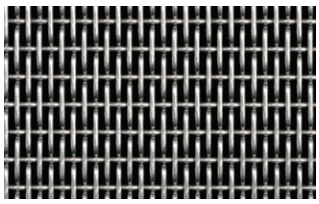
GW916 Linear Cross (CB)



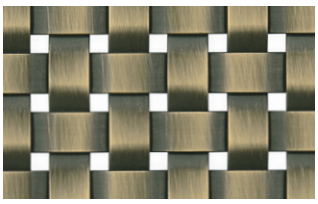
GW917 Organic Weave (SS)



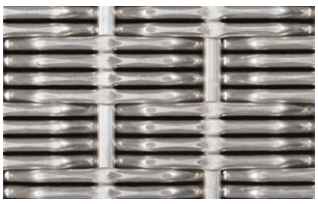
GW918 Madison (C/SS)



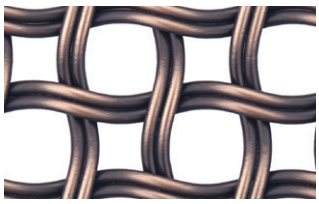
GW919 Micro Weave (SS)



GW921 Chess (BA)

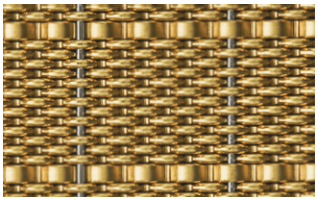


GW923 Cinema (SS)



GW925 Infinity II (CA)

GW926 Franco (SS)



GW927 Akiko II (B/SS)

Designs shown are not to scale. Digital print processes cannot exactly replicate the color and finish nuances of our metal products. Please request a physical sample for an accurate color match.

Design #	Name	Mesh Category	"W" Dimension Alloy	"H" Dimension Alloy	Mixed Metals	Antique Finish
GW900	Escalator	Opaque	SS	SS	No	
GW901	Guardian	Opaque	SS	SS	No	
GW902	Snakeskin	Opaque	SS	SS	No	
GW903	Baroda	Opaque	SS	SS	No	
GW905	Watchband	Opaque	SS	SS	No	
GW906	Round Symmetry	Fine	SS, CB, C, B	SS, CB, C, B	Yes**	
GW907	Metal Steps	Medium	SS	SS	No	
GW908	Jewel Path	Medium	SS, CB	SS, CB	No	A
GW909	St. Paul	Fine	SS, CB, C, B	SS	Yes*	
GW910	Ice Dancer	Medium	SS	SS	No	A

GW921	Chess	Medium	SS, B	SS, B	No	A
GW923	Cinema	Opaque	SS	SS	No	
GW925	Infinity II	Medium	SS	SS	No	A
GW926	Franco	Opaque	SS	SS	No	
GW927	Akiko II	Opaque	SS, CB, B	SS	No	

What facts do I need to know about GageWoven?

- Thirty-two (32) standard patterns.
- All designs are available in 304 or 316 stainless steel (SS).
- Select designs are available in copper (C), commercial bronze (CB), brass (B), or a combination thereof.
- Antique Brass (BA) and Antique Copper (CA) plated finishes are available on select designs.
- Sheets can be easily cleaned with a mild soap and water solution or non-abrasive cleaner followed by drying with a soft, lint-free cloth.
- Appropriate for elevator lobbies and cab interiors, feature walls, ceilings, plus other architectural fabrication and consumer products.
- Class A Fire Rated

What installation options can be used?

- **CPS Trim** – Mesh panels secured to a backer panel using a concealed attachment method — pressure sensitive adhesive, wire, or other method.
- **System USS** – Framing system suitable for in-fill panels, wall panels and room dividers
- **U-Channel** – Economical perimeter edge can be used as a framing solution for a wide range of wire mesh patterns (not all of our standard mesh patterns are suitable for this system).

* If mixed metal, one alloy must be Stainless Steel (SS)
** If mixed metal using a commercial bronze alloy, "H" must be Stainless Steel

SS = Stainless Steel
CB = Commercial Bronze
B = Brass
C = Copper

A = Antique Brass (BA) or Antique Copper (CA) finishes on Mild Steel. Size limitations apply.
