

GAGEMETAL[®]

Patinated Muntz

Gage Architectural Products introduces three GageMetal options in Patinated Muntz Brass. Muntz Brass sheets are crafted in a #4 Brushed finish and then oxidized for a rich, warm glow. Sheets are then clear coated to protect the Patinated finish.

GM456B Umber
Light Patination

GM456C Carob
Medium Patination

GM456D Sable
Dark Patination

Specifications

- Sheet size is 48" x 96"
- Approximate weight is 2.016 lbs/SF
- Sheets are 18 gauge (.040"/1.016 mm thick)
- When cutting, it is recommended that a sharp shear or saw be used.
- Sheets can be easily cleaned with a mild soap and water solution or non-abrasive cleaner (i.e. Windex[®]) and a soft, lint-free cloth.

What installation options can be used?

- **Gage System E (Extrusion)** – Gage will powder coat extrusion to coordinate.
- **Stand-Offs** – By contractor
- **Direct Glue** – Use appropriate commercial grade construction adhesive to mount to surface (i.e. sheetrock, MDF, or other)
- **Elevator Doors** – Panels can be pre-formed at the factory to a 90° angle without damage to the finish. A clear topcoat is applied after the panels have been formed.
